

I just wanted to write and thank Mike on how smooth and easy it was to get my mortgage using him as my mortgage consultant. He asked for everything that he needed at the beginning on the process, not like other mortgages I've been involved in where they need this and that time after time all the way up to the day before closing. I actually had to wait on the seller to get his things together before we could close, so I would strongly recommend Mike as your consultant. If I ever need to buy a house again I will use him as my mortgage consultant.

Thanks Mike,

Bob Ludemann
