

My wife and I strongly recommend Mike Vrba. Being new to the area and being first-time home buyers, we were referred to Mike through the sellers of the home we were looking to buy. From day one, Mike was in constant contact with us. During our first meeting with Mike, he fully explained every aspect of home buying and provided us with a number of different options and contingency plans. Throughout the transaction, Mike educated both my wife and I on different aspect of home buying. When questions arose, Mike was always quick to answer or find the answer for us. Although it was not his duty, we also noticed that Mike took it upon himself to address our issues and concerns that were not related to the mortgage broker. By the time of closing, we were so prepared and educated by Mike that we had no questions at closing and understood every aspect of the purchase. We would highly recommend Mike to others and would definitely conduct business through him again.
