

OCTOBER 28, 2008

Hello, my name is Paris Johnson and this is my testimonial regarding Mike Vrba of Cherry Creek Mortgage.

I was first introduced to Mike Vrba through a very close and dear friend whom I trust very much. I figured if she used him, I could use him too. She gave me his number and I called and left a message and within minutes, he returned my phone call. He asked questions in regards to what I was looking for and how much I wanted to spend. But most importantly, how much could I afford. Talking to Mike Was not like talking to a stuffed shirt broker. He was different and that's why I felt so comfortable talking to him. He worked with me for almost a year and never hurried me or lost patience with me . The main character I like the most about Mike is his honesty. I went through other brokers and they quoted me pre-approval loans, but none of them took the time to tell me what big price tags came along with the approval loans. Mike broke it down for me and told me how much I needed to spend in order to live comfortably. Another thing I like about Mike is his jokes, even though he thinks they are corny. He's right on the money as far as figures goes.

He was with me all the way up to closing. Even though he wasn't able to make my closing, he called to be sure things went well. And most importantly, he called to make sure I was okay.
