Dear Mike Vrba,

It is with great joy that I am able to write this letter regarding our new house resulting from your mortgage assistance. Being a new home buyer is a difficult position and you were very helpful and informative from the beginning. At our first meeting you educated me in different mortgage types and were able to suggest the best for our needs. The process of applying was made easy, and all fees were reasonable and explained in full. You were able to recommend the real estate agent that found us the house, the lawyer who represented us in the sale, and even the insurance broker that was able to give us the best price for the most coverage. Truly you became a one stop shop for everything that was needed to buy a house. Any questions that I had, whether they regarded the financing, terms, fees, or even how we should approach the buyer and negotiate the terms of the contract were answered in a prompt and courteous fashion. Thank you so much for your assistance, and rest assured that we will utilize your services in the future.

Sincerely,

Scott Mechowski
